

MANUEL MALDONADO

Senior Software Engineer

+56998183313 / mmaldonadortiz92@gmail.com / Santiago, Chile

SUMMARY

Experienced Senior Software Engineer with a focus on Frontend Development. Passionate about developing tools for making other developers' life easier. Strong understanding of Typescript ecosystem. Seeking an opportunity to work on meaningful projects that will make an impact.

WORK EXPERIENCE

Mercado Libre

Jul 2024 - Present

Sr. Software Engineer

Santiago, Chile

- Built and maintained advertising features for major clients (e.g. L'Oréal, Nike, etc) within Mercadolibre and Mercadopago apps using Typescript and Go.
- Delivered key initiatives like Splash Screen Campaigns, Store inventory Campaigns and AdX integration with Google.
- Improved the type system, supported tech migrations, and mentored peers to enhance code quality and team efficiency.

Latam Airlines (Globant Contractor)

Jun 2022 – Jul 2024

Web UI Developer

Santiago, Chile

- Unified and enhanced Latam Payment Platform's user and development experience across all products, encompassing multiple payment methods, bill generation and flights and/or ancillaries' confirmation, which lead to an increment of sales in 13%.

Autodesk (Globant Contractor)

Jul 2021 – Jun 2022

Fullstack Developer

Remote

- Migrated various functionalities and components from their old BIM360 legacy project (in Ruby and handlebars) to the new ACC Platform (in NodeJS and React).

Latam Airlines (Globant Contractor)

Oct 2018 - Jul 2021

Web UI Developer

Santiago, Chile

- Rebuilt Latam Airlines Corporate Site, with new technologies, look, features, and faster loading time, without sacrificing accessibility, which was well received by recurrent users and helped to reach new customers. It ended up incrementing the airline's income by 12%.
- Developed an UI component library for unifying design, functionality and a11y across Latam frontend projects that later grew up into a design system and became the standard.
- Lead a team of six engineers for the development of the Latam Mobile App, where we were able to bring the app to the PlayStore and the AppStore on a record time of less than three months with minimal updates.

Globant**Oct 2018 - Present**

Web UI Developer / NodeJS Developer

Santiago, Chile

- Mentored 3 Jr Web UI Developers, enabling them to achieve professional growth and personal goals.

Mediastream SPA**Dec 2017 – Oct 2018**

Fullstack Developer

Santiago, Chile

- Web, Mobile and backend application development with React, React Native and Serverless architecture.
- Created a highly functional and configurable Mobile and Web App builder for generating OTT Apps effortlessly, which helped to reduce the development time from 3 – 4 months to 5 - 6 days.

Webgains, Ltd.**Dec 2016 – Dec 2017**

Frontend Developer

Remote

- Re-implemented their legacy Affiliate Marketing frontend platform with new technologies and a fresh look and feel.
- Backend application containerization, which reduced the installation times for new entries from 2 – 3 days to 20 minutes.

LCC Open Tech**Jan 2016 – Dec 2016**

Fullstack Developer

Puerto Ordaz

- Small to medium sized applications planification and development, with a variety of technologies. Django, NodeJs, Laravel, AngularJs, Ionic, Wordpress etc.

CVG Bauxilum**Mar 2015 – Dec 2015**

Control Systems Engineer

Puerto Ordaz

- Honeywell TDC3000/Experion control systems and HMI support, Siemens S5/S7 PLC Software migration/design and System Simulations with LabView.

EDUCATION

Unexpo, Vicerectorado Puerto Ordaz
